Derco Aerospace signs agreement with 3M Aerospace and Aircraft Maintenance Department

June 1, 2007, MILWAUKEE — Derco Aerospace, Inc. recently signed an agreement with 3M Aerospace and Aircraft Maintenance Department to distribute its complete line of aircraft surface protection products for the C-130, F-16, P-3, KC-135, F-18, A-10, and Blackhawk aircraft platforms. The 12 month non-exclusive agreement, with the option for renewal, allows Derco to market and sell the 3M protection products to its customers worldwide.

Surface protection products from 3M, such as polyurethane protective boots and tapes, help extend the service life of aircraft by preventing corrosion and foreign object debris damage to the aircraft.

“The Derco team is excited to integrate the 3M protective products into our already extensive OEM line of aerospace products,” said Bill Ochsner, President of Derco Aerospace. “With Derco’s growing portfolio of leading aerospace OEMs, customers can meet all of their fleet sustainment requirements with Derco.”

For more information regarding the 3M protective products distributed by Derco, please call (414) 355-3066 or visit www.dercoaerospace.com.

This release includes "forward looking statements" concerning the anticipated completion and benefits of a transaction that remains subject to uncertainties. Important factors that could cause actual results to differ materially from those anticipated or

implied in forward looking statements include changes in economic conditions and changes in government procurement policies and practices. For information identifying other important economic, political, regulatory, legal, technological, competitive and other uncertainties, see United Technologies Corporation's Securities and Exchange Commission filings as submitted from time to time.

About Derco

Founded in 1979, Derco Aerospace, Inc. is a world leader in providing aircraft Spares, Services, and Solutions to customers around the globe.
