Safair chooses Derco as strategic supplier

MILWAUKEE, August 17, 2007 – Derco Aerospace, Inc. was selected by Safair as its strategic supplier in support of its L-100 aircraft maintenance activities. Under the comprehensive agreement, Derco will manage a consignment inventory using its e-consignment tools and will also manage Safair’s logistics services, component management, and just in time inventory. In addition to the scope of the new agreement, Derco will continue to manage the performance based logistics program that Derco and Safair have jointly worked for two years.

“We are pleased to strengthen our existing relationship with Safair,” said Bill Ochsner, President of Derco Aerospace. “With this new agreement we will continue to offer Safair increased inventory turns and higher aircraft availability, while reducing the cost of ownership. We are committed to providing Safair the high level of service they have come to expect from us.”

About Derco

Founded in 1979, Derco Aerospace, Inc. is a world leader in providing aircraft Spares, Services, and Solutions to customers around the globe. Through solid relationships with premier original equipment manufactures (OEMs), Derco maintains one of the largest and most diversified aircraft spares inventories in the world. Today, Derco is a full-service logistics and solutions provider, supporting military and commercial fleets in more than 65 countries. Derco is a wholly owned subsidiary of Sikorsky Aircraft Corporation. Sikorsky is a subsidiary of United Technologies Corporation (NYSE:UTX), of Hartford, Conn., which provides a broad range of high-technology products and support services to the aerospace and building systems industries.
