### Derco expands repair capabilities to include fuel components

March 23, 2007, MILWAUKEE, Wis.— Derco Repair Services expanded its repair and overhaul capabilities to include commercial and military fuel components. In a move to better serve its customers worldwide, Derco is bringing the fuel component repair and overhaul capability in house to reduce customer cost and shorten turn-around times.

Derco Repair will be able to repair and overhaul fuel boost pumps covered under ATA Chapter 28 for the C-130 and various commercial aircraft.

“Derco is recognized in the industry as an innovative leader continuously looking for new ways to serve its customers,” said Bob Mingo, General Manager of Derco Repair Services. “By adding new capabilities in-house, we are able to provide a menu of solutions that provides customers cost-effective solutions, on time.”

### **About Derco Repair Services**

Founded in 1986, Derco Repair Services, Inc. provides the best value and highest quality repair and overhaul of aircraft components and accessories to military and commercial operators around the world. Derco Repair Services is an FAA-Certified Repair Station and an OEM-Authorized Repair Station. Derco Repair is located in a 45,300 square foot state-of-the-art facility that utilizes
